The TX series of power amplifiers by SAE Audio are a very versatile and efficient yet affordable option for those requiring an all-purpose device. Implementing Power Factor Correction technology along with Universal Mains Regulated SMPS power supply and Class D power modules, the TX series combines in the same amplifier all the functional requirements found on most sound reinforcement applications.

Technology

Class D

SAE Audio Class D technology implements the most advanced electronics within the smallest form-factor amplifier modules. The Class D amplifiers by SAE Audio implement the most efficient sound amplification technology available today, providing an unmatched system portability and affordability with the best sonic performance.

Universal Mains R-SMPS

SAE Audio renowned Regulated SMPS power supply has been further improved with universal mains operation on all the range from 90V to 260V, eliminating the need for market specific power supplies and related reliability issues. The Universal Mains Regulated SMPS power supply delivers consistent power world-wide.

Power Factor Correction

SAE Audio innovative Power Factor Correction (PFC) technology along with its renowned R-SMPS power supply allows to draw current from the mains in a more efficient way translating to a higher out power with a lower power consumption. Additionally PFC improves audio quality; it generates lower harmonics of the mains frequency thus reducing the hum and induced distortion because of perturbed mains.

Features

- Class D power modules.
- Universal mains Regulated SMPS.
- XLR signal input and link connectors.
- SpeakON NL4 and binding-post output connectors.
- Input sensitivity selector on the back panel (0.775V / 1V / 32dB).
- Routing mode selector on the back panel (stereo / bridge-parallel).
- Mains circuit-breaker on the back panel(only TX5200).
- Channel independent protection and clip warning indicators on the front panel.

- Channel independent power and -5dB/-10dB/-20dB/signal presence indicators on the front panel.
- Low unit weight(TX800-TX3600).

Applications

- Sound reinforcement applications with mid power density and good sounding requirements.
- Small to mid sized bar/café/lounge installation.
- Portable or rental industry PA system.
